Fixed heat detector ES Detect

Features:

- Optimally matched to the ES Line system
- With multisensor detectors for the detection of all fires, even under the most difficult operating conditions
- Up to 30 detectors per detection group
- Uniform response sensitivity of the detector for all different types of fire for the multisensor detectors
- Large distance between signal and interference magnitudes due to special sensor and electronics design for suppressing electromagnetic influences
- Automatic adaptation to varying environmental influences
- Electronic compensation also called driftcompensation of long-term influences of contamination or aging
- High reliability against false alarms by temporal evaluation of different sensor criteria, with built-in insect screen and sealed against rear air flow entry
- Exclusion of signal forms not typical of fires through special filter algorithms
- Automatic self-monitoring of the detector electronics
- Automatic self-monitoring of sensors for function and condition
- Designation of the heat detector by a black ring on the light pipe
- Hours of operation, alarm and fault counter in each detector
- Operation data retrieval of all detectors of a group with standard service PC and field bus interface
- Detector LED for alarm display and as an identification display in the service (for maintenance with 8000 tools)
- · Standard socket and relay base
- · Socket adapter for ceiling installation
- Dust caps optional for fire detectors and detector base
- Kit for suspended mounting

Part-No.: 800171 Approval: VdS

Automatic heat detector with fast semiconductor sensor for reliable detection of fires with distinctive heat. Fire detector with decentralized intelligence, automatic function self-test, alarm and operations data storage and alarm display. A remote indicator can also be connected.

Common technical data

 $\begin{array}{lll} \text{Operating voltage} & 8 \dots 42 \text{ V DC} \\ \text{Quiescent current @ 9 V DC} & 25 \,\mu\text{A} \\ \text{Alarm current @ 9 V DC} & 9 \,\text{mA} \\ \text{Area to be monitored} & 30 \,\text{m}^2 \\ \text{Height to be monitored} & 7,5 \,\text{m} \\ \end{array}$

Air velocity 0 m/s ... 25,4 m/s Application temperature -20 °C ... 50 °C Storage temperature -25 °C ... 75 °C Air humidity < 90 %

Type of protection IP 40 with base, up to IP 43 with base and option

Material AB

Color white, similar to RAL 9010

Weight approx. 110 g
Detector specification EN 54-5 A1S : 2002

Dimensions Ø: 117 mm H: 49 mm (62 mm incl. detector base)

Î

Special marking for heat detector on the light pipe: black ring

Without detector base

Accessories:

767800 Assembly bracket
